No. 961/5-19

From

Rajakaryapravina Rao Bahadur,
T.V. Arumugam Mudaliar, Esquire, B.A., C.I.E.,
Inspector-General of Prisons in Mysore,
Bangalore.

To

C.S. Balasundaram Iyer, Esquire, B.A.,
Chief Secretary to the Government of
H.H. the Maharaja of Mysore,
Bangalore.

Sir,

oductory.

In continuation of my letter No. 908/5-19 dated 15/16th instant, forwarding the Annual Returns of Jails and Lock-ups of the State for the calendar year 1918, I have the honor to submit the following report on their administration.

sions.

2. The report, as usual, is divided into three parts viz:- Part I, Judicial, dealing with statements Nos:- 1 to 8, 18, C,D, General Summary, Part II, Financial, dealing with statements Nos:- 9,10,11,12 and 13 and Part III, Vital, dealing with statements Nos. 14 to 17, A and B.

ector-General of Prisons.

3. I was in charge of the Department throughout the year.

ses of Prisons.

4. The number of Jails and Lock-ups remained the same as in the previous years and they are as given hereunder:-

1 Central Jail at Bangalore.

1 District Jail at Mysore.

6 District Lock-ups at the Head quarter Towns of districts except at Bangalore & Mysore

1 Special Lock-up at Kolar Gold Fields.

71 Taluk Lock-ups at the Head quarter Town of Taluks and Sub-Taluks.

Buildings and accommodation.

5. Bangalore Central Jail . As I ha already stated in my previous reports the buildings of this Jail are very old. Petty repairs were executed here and there during the year under report. The project for the construction of a new Central Jail which has been called for from the authorities of the Public Works Department has not been receiv by me as yet. The Chief Engineer of Mysore, who was reminded of the matter has replied that the project in question would be sent up by the end of April 1919. On receipt of the same in this office, I shall submit definite proposals for the orders of Government.

Mysore Jail. The buildings of this Jail also are old and yet they are kept in a good state of repairs. The various improvements and repairs sanctioned by Government are being executed gradually one after another. The question of certain minor improvements needed in the kitchen attached to the Jail, the change of site sanctioned for residential quarters to Jail officials, of improving the post-mortem room and of the construction of a plat-form for ablutionary purposes is under contemplation. A new dining hed is under construction. The plan for the anctioned guard room and armoury block was lightly modified and the work is expected

to

to be finished in the course of the current year Viz, 1919.

Lock-ups. The Lock-up buildings throughout the State are ~~fairly~~ fairly in good condition. ~~and~~ The construction of an additional Lock-up for Europeans at Kolar Gold Fields has been taken on hand. It is reported that the work of constructing the compound wall round this Lock-up, which has been sanctioned by Government, will also be taken up early by the Public Works Department. The construction of a new lock-up at Malur is almost completed and the Executive Engineer, Kolar Division, has been addressed to hand over the same to the Lock-up authorities as early as practicable. The District ~~xxxxxxxxx~~ Lock-up at Tumkur is yet kept in the old building and it is not yet removed to the old Jail buildings, as they have not been readjusted to suit the requirements of the Lock-up. Plans and estimates for the construction of a new Lock-up at Turvekere have been sent, after countersignature, to the Public Works Department for sanction. IT is reported that plans and estimates for the improvement and repairs to the District Lock-up at Shimoga have been sent, duly countersigned, to the Executive Engineer, Shimoga Division. Definite proposals for constructing a new Lock-up at Sagar have been called for, as the present accommodation in that Lock-up is found insufficient.

6. General Summary:- At the beginning of the year under report, there remained in the Jails and Lock-ups, a total population of 1039 prisoners of all classes, 11089 prisoners were admitted, 10872 were discharged from all causes and 1256 remained in confinement at the end of the year. The daily average number of prisoners increased from 1164.01 to 1203.37.

7. Civil Prisoners:- The number of this class of prisoners at the commencement of the year was 9; 134 were admitted during the year and 131 discharged leaving a balance of 12 prisoners at the end of the year. The daily average of this class of prisoners was 7.28 against 6.50 in the previous year.

8. Statement No. I - Convict population. On 1st January 1918, the convict population was 780 of whom 773 had been direct committals and the remaining 7 in transit. New admissions of the former class numbered 2231 and the adminissions by transfer 68 making a total of 3072. Of these 23 were transferred to the Jails in the Madras Presidency, 49 were transferred from one Jail to another within the State, 179 were released on appeal 1714 on expiry of sentence, 189 under remission Rules, 50 on other grounds (granted conditional release as they were enlisted for service in the 10th Jail Porter Corps), one was surrendered to the British Territory, one escaped, 9 were executed and 35 died leaving a balance of 822 at the close of the year.

Among the latter class of convicts, i e, convicts in transit whose number was 7 at the beginning of the year, fresh admissions numbered 685 making a total of 692. Of these, 678 were transferred, 6 were released on appeal, 3 on expiry of sentence, and 2 escaped leaving a balance of 3 at the end of the year. The daily average number of convicts was 877.14 against 905.89 in 1917 or a decrease of 28.75.

9. Sexes of convicts:- Out of 2231 direct admissions, 2123 or 95.16 per cent were males and 108 or 4.84 per cent were females. Their percentages were 92.89 and 7.11 respectively in the year previous.

10. Statement No. II - Religion, Age, Education and Occupation of Convicts:- Classified according to religion, 85 or 3.82 per cent of total admissions were Christians, 362 or 16.22 per cent were Mahomedans, 1778 or 79.69 per cent were Hindus and 6 or .27 per cent were Budhists and Jains against 6.46 per cent of Christians, 15.19 per cent of Mahomedans, 78.30 per cent of Hindus and .05 per cent of Budhists among those admitted in the previous year. The ratio of Christians has decreased by 3.64, while the ratios of Mahomedans, Hindus and Budhists have increased by 1.03, 1.39 and .22 respectively as compared with the figures of the previous year.

11. Age periods:- The number of convicts under 15 years of age admitted during the year was 68 or 3.05 per cent, between 16 and 40 years 1768 or 79.24 per cent, between 40 and 60 years

367 or 16.45 per cent and above 60 years 28 or - 1.26 per cent.

12. Education. Classified according to education, 358 or 16.04 per cent were able to read - and write, 14 or .63 per cent were able to read - only and the remaining 1859 or 83.33 per cent were illiterate. Similar percentages of those admitted in the year 1917 were 18.17, .35 and 81.48 res- - pectively.

13. Previous Occupation:- Out of the total number of convicts admitted during the year, 2123 were males, among whom:-

119 or 5.61 per cent were Government or Municipal servants;

142 or 6.69 per cent were professional persons;

38 or 1.79 ,, were persons in personal service

966 or 45.50 ,, were agriculturists;

141 or 6.64 ,, were persons engaged in commerce and trade;

83 or 3.91 per cent were persons employed in - mechanical arts &c;

634 or 29.86 percent were miscellaneous persons not classed otherwise.

As usual, agriculturists form the bulk of the admissions, their percentage in the year previous being 46.55 of the total number of males admitted.

14. Civil condition of females:- Among 108 females, the married women numbered 42 or 38.89 per cent, unmarried 6 or 5.56 per cent, widows 56 or - 51.85 per cent and one prostitutes 4 or 3.70 per - cent.

15. Statement No. III - Length and Nature of - sentences. Of 2231 convicts that were admitted - into Jails and Lock-ups, 1063 had not more than - one month's imprisonment to undergo. As in the previous years, the proportion of short periods of im-

imprisonments is excessive. Twenty three prisoners sentenced to transportion for life and 9 prisoners sentenced to suffer death were admitted into Jails during the year against 11 & 17 respectively in the year previous.

Classified according to the nature of sentence:-

240 or 10.76 per cent had been sentenced to - simple imprisonment;

1974 or 88. 48 ,, had been sentenced to rigorous imprisonment;

8 or .36 ,, had been sentenced to rigorous imprisonment with solitary confinement; and

.9 or .40 ,, had been sentenced to rigorous imprisonment with fetters.

16. Statement No. D - Nature of offences:- As in previous years, theft including theft in a building and by servants outnumber all other causes of imprisonments, convicts thereunder being 1147 or 51.41 per cent of the total admissions. Convictions under Special, Local and Municipal laws have increased, being 249 or 11.16 per cent against 219 or 9.80 per cent of the total admissions in the year previous.

17. Statement No. IV - Recomittals, ~~and~~ Habituals and Juvenile offenders:- Out of the total number of convicts admitted into Jails and Lock-ups during the year, 141 had been previously convicted. This number includes 6 female convicts. The number of recomittals among Juveniles has increased, being 11 against 2 in the previous year. Records of previous convictions are not usually sent by Magistrates with convicts. The recognitic

of

of habituals is done by questioning the prisoners themselves and by the testimony of warders and other prisoners. In doubtful cases - finger prints are taken in Jails and sent to th Bureau for identification. In most of the cases it is the Jail authorities that trace previous convictions. In this connection, I once again request that Government may be pleased to repeat para 3 of their order No. J. 2072-83/Pris. 45-14-4 dated the 30th of November 1915 enjoining the Magistrates to record previous convictions on warrants issued by them.

18. Statement No. V - Escapes and recaptures:- Of those who had escaped during the previous ten years, none was recaptured. During the year under report, three convicts escaped, one from the Taluk Lock-up at Chickballapur, one from the Lock-up at Thirthahally and the other from the Lock-up at Yelandur. The convict that had escaped from the Thirthahally Lock-up was recaptured and punished with 6 months' rigorous imprisonment on 30th August 1918. Similarly, the convict that escaped from the Yelandur Lock-up has also been recaptured during the year and steps have been taken to place him for trial before a Magistrate for having escaped from lawful custody. The other convict who has escaped from the Lock-up at Chickballapur still remains at large.

19. Statement No. VI - Offences and punishments:- The number of offences recorded was - 287 against 294 in the previous year. All the offences were dealt with by the Superintendents of Jails themselves under the authority - vested in them by the Prisons Act of 1870

Of the offences tried by them, 34 or 11.84 per cent were met with corporal punishment against 40 or 13.60 per cent in 1917.

20. Statement No. VII - Convict Officers:- Among the daily average number of 877.14 convicts, 104 or 11.85 per cent were employed as Prison Officers against 137 or 15.12 per cent of the daily average number employed in 1917. The number of recorded offences fell from 21 in the previous year to 15 in the year under report

21. Statement No. VIII - Diet:-

The scales of dietary prescribed in the Jail and Lock-up Manuals were in force during the year.

22. Statement No. XVIII - Undertrial prisoners. There remained 250 prisoners of this class at the beginning of the year. New admissions numbered 7971 making a total of 8221. Of these:-

1398 were released on bail;

1513 were discharged and acquitted by Magistrates;

1543 were released by Police;

2134 were convicted and sentenced;

1199 were transferred;

5 escaped; and

10 died, leaving a balance of 419 at the close of the year. The number of admissions and acquittals were in excess of those in the year previous, but the average period of detention remained the same as in the year 1917. The daily average number has increased from 251.62 in 1917 to 318.95 in the year under report.

23. Statement No. C - The remission system:- The number of convicts released under the operation of the Remission Rules contained in Chapter XX

XX of the Mysore Jail Manual was 189 against 283 in the year before. The Maximum remission gained was 1557 days by a life-term convi of the Central Jail, Bangalore. The maximum - gratuity earned was Rs 59-14-6 by the same li term convict. The average gratuity earned by convicts released was Rs 3-0-5 during the yea under report against Rs 1-13-5 in the year -- 1917. The award of remission is appreciated b all prisoners, some of whom are reported to - have even felt very sorry for their careless- ness in the early period of their term during which some offences which they committed, de- prived them of the full benefits of the syste

24. Statement No. IX-Gross expenditure;- Excluding the outlay on repairs to buildings, the gross expenditure of the year was Rs --- 115350-10-6 against Rs 104264-3-7 in the year previous. Nearly all heads of expenditure -- show an increase, those of "Dietary charges" and "Charges for other miscellaneous services and supplies" showing it more markedly than -- others. This increase in expenditure under va- rious heads is mainly attributable to abnormal seasonal conditions prevailed in the year under report. The increase Under "Dietary charges" is due to high prices at which articl of rations were purchased during the year. Sim arly, the increase under "Charges for other mi allaneous services and supplies" is due to (1 he increase in the prices of various articles especially Kerosine Oil (2) the increase in the rate of- ratuity paid to released prisoners and (3) to he increase in the cost of uniforms supplied t

warders in Jails in accordance with the new Jail Manual. Consequent on the increase in expenditure during the year under report, the cost per head rose from Rs 89-9-2 in 1917 to Rs 95-13-8.

25. Statement No. XI-Employment of Convicts:- Among the daily average number of 877.14 convicts, 779.21 or 88.83 per cent were available for work, the rest being either convicts undergoing simple imprisonment, sick and convalescent or infirm or those that could not be employed for other reasons. Of the convicts available for work, 104 or 13.34 per cent were employed as Prison Officers, 115 or 14.75 per cent as Prison servants and 300 or 38.50 per cent on Manufactures, against 137 or 16.64 per cent, 71 or 8.62 per cent and 301 or 36.58 per cent of the daily average number of convicts who had been available for employment in the year 1917.

26. Statement No. XII-Cash earnings:- The result of employment of convicts was that a sum of Rs 19772-6-7 was realized as revenue against Rs 16807-12-10 realized in the year 1917. This amount includes Rs 1153-4-0, the value of convict labour supplied to the Palace institutions and the Dewan's quarters in Bangalore and Mysore, calculated at the rate of 2 annas per head per diem and taken into account @@ only in administrative accounts of the Department. The average cash earnings per head of working convicts rose from Rs 20-6-10 to Rs 25-6-0 in the year under report.

27. Statement No. XIII-Net cost of prisoners:- The gross cost of maintenance as mentioned in para 24 above was Rs 115350-10-6, de-

deducting from this, the total cash earnings of prisoners , ie, Rs 19772-6-7, the net cost of maintenance of prisoners in Jails and Lock-ups was Rs 95578-3-11 or Rs 79-6-9 per head against a net cost of Rs 87456-6-9 or Rs 75-2-2 per head in the year before.

Industries in Jails.

28. Bangalore Central Jail:- The outlay on various industries carried on in this Jail was Rs 15829-4-1 and the amount realized and credited to Treasury was Rs 25375-2-4 or an excess of Rs 9545-14-3 as against Rs 15794-13-11 and Rs 20096-10-5 respectively in the year before. Taking into consideration the value of raw materials, the manufactured goods in stock and the outstanding debts due to the Jail both at the commencement and at the end of the year 1918, the net profit from manufactures was Rs 10321-12-7 against Rs 4517-13-9 in the year previous. This sum,ie, Rs 10321-12-7 includes Rs 1446-0-6 being the cost of labour for manufacturing ropes out of the fibre supplied by the Military authorities at Bangalore. The Superintendent of this Jail reports that plain woollen carpets of a new design were manufactured and sold to the public on a large scale in the year under report.

29. The Central Jail Garden:- The garden supplied the requirements of the Jail without interruption, though there was no work for about a fortnight during the period of influenza epidemic in October and November 1918. The expenditure on account of seeds and implements purchased was Rs 204-5-2 against Rs 273-4-7 in the previous year and the realization by the sale of vegetable

to the public was Rs 784-12-1 against Rs 462-8-3 in 1917. The increase was due to the rates of - vegetables and grass having been enhanced in accordance with the rates ruling in the market. The cost of vegetables supplied for the use of prisoners confined in the Jail amounted to Rs 784-3-6 against Rs 942-0-1 in 1917. This cost has been calculated at 120 lbs per rupee, which was the rate tendered by the contractor, against 100 lbs in the year previous. During the year, there was a strike in the vegetable market, Civil and Military Station. At that time - the Jail undertook the supply of vegetables to - the Military Force and the required quantity was promptly supplied, which had the desired effect of bringing the strike to an end.

30. Mysore Jail:- The following table -- illustrates the progress achieved in the manufacturing Department of this Jail:-

Year:-	Number of convicts employed.	Total value of goods - turned out. Rs- As- Ps.	Net profit to Government. Rs- As- Ps.
1916.	15.23	1712- 3-10	564- 11- 2.
1917.	18.71	2067- 1- 9	1041- 2- 9.
1918	19.67	4561- 3- 7	1465- 7- 9.

This table clearly shows that there was an increased quantity of work turned out during the year under report,. The quality of the work is also reported to have improved.

31. Mysore Jail garden:- The value of vegetables consumed by prisoners was Rs 430-5-11 and that sold to the public was Rs 551-13-3 -- making a total of Rs 982-3-2 against a small outlay of Rs 6-10-4. The net income was therefore - Rs 975-8-10 as against Rs 823-13-1 in the year - previous. This result is reported to have been

achieved, notwithstanding the fact that the -- garden had to be neglected for over a month on account of influenza in the Jail and paucity of men to work in it. The supply in this period - was therefore poor and the difficulty was tided over by the exchange of other garden produce - for vegetables.

32. Statement No. XIV-Sickness and mortality:- Exclusive of HOSPITAL and observation cells, the Jails and Lock-ups in the State can provide accommodation for 2359 prisoners. The aggregate number of prisoners admitted into Hospital rose from 641 in 1917 to 844 durin, the - year under report. The daily average number of sick has therefore increased from 16.19 to 27. 23 . The number of deaths has similarly increased from 22 in 1917 to 47 in the year under - report. Out of 47 deaths, 29 occurred in the - Central Jail, Bangalore, 6 in the District Jail Mysore, and the remaining 12 in the Lock-ups of all the Districts except Shimoga. Of these -- deaths, 35 occurred among convicts and the rest among undertrials and Civil. The increase in - the number of deaths was due to Influenza which appeared in an epidemic form during the months - of October and November 1918. The Medical authorities of Jails took great precaution in suppressing the disease by seggregating the contacts in barracks, Hospitals and cells and allowing special diet to the sick.

33. Statement No. XV-Sickness and mortality among convicts:- The number of convicts treat

The admissions for malarial fevers markedly decreased, ie, from 286 in 1917 to 81 in the year under report. Of the 35 deaths among convicts;-

1 was due to dysentery,
2 ,, tubercle of the lungs &c,
28 ,, ,, Influenza,
2 ,, ,, Pnuemonia, and
2 ,, ,, Diarrhoea.

34. Statement No. XVI-Mortality according to length of original sentence:- Of the 35 deaths among convicts, 9 occurred among -- those whose sentence did not exceed 6 months, 4 among those who were undergoing a sentence - not exceeding one year, 6 among those whose sentence did not exceed three years, 6 among those whose sentence did not exceed 7 years and 10 - among those whose sentence was above 7 years.

35. Statement No. XVII- Mortality according to the length of time passed in Jail:- Out of the total number of deaths, among convicts, 11 died within 6 months after admission into Jails and Lock-ups, 7 died within one year, 6 within 2 years, 3 within three years, 2 within 7 years and 6 above seven years.

36. Statement No. A-Accommodation in Jails: No overcrowding was reported from Jails and Lock-ups in the State during the year under report.

37. Statement No. B.- Condition of convicts discharged:- The total number of convicts discharged during the year was 2939 against 3072 in 1917. Of these, 1443 convicts, who were discharge from Lock-ups were, as usual, not weighed either at the time of their admission or discharge. Out of

Out of the remaining 1496 convicts who were released from Jails, 832 had gained weight, 221 had lost weight and the remaining 443 had neither gained nor lost it.

38. Drainage and conservancy:- There was no change in the arrangement for drainage and conservancy. The dry earth system has been in force and is working satisfactorily. Male prisoners adopted the Hebrew method of evacuation in Lock-ups.

39. Diet:- Articles of diet were, as usua and subjected to the conditions laid down in the rules relating to the purchase of stores by Government Officers, obtained from contractors at the rates previously agreed upon in the case of Jails. But in the case of Lock-ups, the practice of obtaining supplies at the prevailing market rates from respectable merchants continued during the year under report.

40. Water supply:- Water supply was wholesome and unfailing throughout, except in the Central Jail at Bangalore, where, it is reported much difficulty was experienced in getting the required quantity of supply. No attention has been paid by the authorities of the Water supply department for remedying the defects, though frequent requisitions were sent to them on the subject.

41. Clothing and bedding:- Clothing and bedding were issued to prisoners according to seasonal requirements and rules in force.

42. Religious and Moral instructions:- The arrangements made for giving religious and Moral instructions to convicts in Jails has worked satisfactorily. The prisoners were, as usual, allowed to use books during liesure hours.

43.

43. Inspections:- One Central Jail, c
District Jail, 6 District Lock-ups, 1 Special
Lock-up and 39 Taluk Lock-ups were inspected
ne in detail in accordance with Govern ent Or
ler No. 43/E.A.G. dated 29th January 1916, du
ing the year under report. Besides detailed -
inspections, I paid two more visits to the Di
:rict Jail at Mysore and one visit each to th
Lock-ups at Tumkur, Chitaldurg, Jagalur and -
Holalkere. The District Magistrates inspe
:d 46 Lock-ups, and all these were inspected
~~only~~ once, except the Taluk Lock-ups at Holalk
nd Sagar which, the District Magistrates of
Chitaldurg and Shimoga, state, were inspected
y them twice.

44. Official and non-official visitors:-
uring the year under report, the only offici
isitors that paid visits to Jails and Lock-u
ere the District Magistrate, Mysore, and the
nspector-General of Police. The former paid
ne visit to the District Jail, Mysore, and the
atter visited once the Lock-ups at Gundlepet
nd Hole Narsipur. Out of the non-official Vi
itors appointed by Government in their Order
.4045-7/Pris.3-17-10 dated 4th April 1918, nc
aid visits to Jails except Rev G.Wilkins who
ited the Central Jail at Bangalore twice in t
ear.

45. Personnel:- Mr. A. K. Pani continu
be in charge of the duties of the Superinte
nt and Medical Officer of the Central Jail,
ngalore, throughout the year. The charge of
strict Jail, Mysore, was held by Mr. S.Subba I
sistant Surgeon, throughout the year with the

exception of one month and 9 days from 21st September to 30th October 1918, during which period Mr. E.S. Krishnasami Iyer held both the General as well as Medical charges of the Jail.

46. Warder force:- Much difficulty was felt to procure the services of men for the posts of warders, who were of the standard height and chest measurements prescribed in the Jail Manual. The posts do not tempt the men, since the old scale of pay of Rs 7/- still exists. Most of the men in service being attracted by better pay outside have left the Jail service. Men of old age and youths under 20 years, both of poor and meagre physique, are being entertained temporarily to fill up vacancies. I ~~have~~ therefore place before Government once again the question of increasing substantially the scale of pay of warders . There was a strike among the warders of the Central Jail in the month of March 1918, as they were required to do duties in accordance with the new rules contained in the revised Jail Manual. Consequently, I had to visit the Jail on the 30th of the same month and explained to the strikers clearly the nature of duties they had to perform as defined in the Jail Manual. Upon my instructions, they resumed their duties. During the absence of the strikers, application was made to the Inspector-General of Police who was kind enough to place the services of 6 constables and one Naik at the disposal of the Jail authorities for guarding purposes.

47. Establishment:- The staff of my office has, as usual, worked satisfactorily during the year.

48. Concluding Remarks:-

On the whole, discipline and conduct of priners were good throughout the year.

I have the honor to be,

Sir,

Your most obedient servant,

Inspector-General of Prisons.

Read:-

Letter No. 9615-19 dated the 25th April 1919 from the Inspector General of Prisons submitting the repor on the Administration of Prisons in Mysore for the calendar year 1918.

Order No. G 5716-29

Dated Bangalore, the 4/9/1919

may this be
1. printed? — yes
2, treated as a Standing order?
3, published in the Gazette, Englis part —?
4) translated?
5, placed at the disposal of the press? — yes
6, published in the Gazette, Kannada part?

The year opened with 1039 prisoners of all classes in the Jails and Lockups of the State and the admissions during the year numbered 11,089, giving a daily average of 1203.37 against 1164.0 in the previous year. Out of these, 10872 were discharged leaving a prison population of 1256 at the close of the year.

2. The number of convicts under 15 years of age admitted during the yea under review was 68 against 46, 28 and 19 respectively in the three preceding years and there was also a marked increase in the number of recommittals among juveniles, which is reported to be 11 against 2, 4 and 5 in the three preceding years. Government have noticed with concern this unfortunate rise in the number of juvenil offenders and they trust that -----

satisfactory arrangements have been made for enforcing the provisions of the Jail Manual for the proper traini & education of this class of convict and for preventing their association with other prisoners.

3. Government are glad to note th the admissions of females, on the other hand, which had risen from 89 in 1905 to 138 and 141 in the two succeeding years decreased to 108 during the year under report and that among these the number with previous ~~convicts~~ Conviction also declined to 6 from 15 and 13 in the two preceding years.

4. The Inspector General of Prisons has often reported that the number of short term convictions is disproportionately large. This is due to the fact that the provisions of Section 562 of the Criminal Procedure Code for the conditional relea of first offenders under certain circumstances are not availed of as largely as may be desired. The attention of Magistrates has already been drawn to this matter in Governme Orders Nos.J.727-39/Pris.60-16-4 and J.4991-5004/Pris.43-17-3 dated 27th August 1917 and 6th June 1918, and Government take this opportunity to impress again upon them the need for a larger use of the discretionary

which its application is waranted.

5. Another matter to which Government regret to have to draw the attention of Magistrates again is the omission referred to by the Inspector General of Prisons in paragraph 17 of his report to furni to the jail authorities the records of previous conviction when convict are sent to prison for incarceratio The proper administration of jails depends in many ways upon a correct classification of prisoners into fi offenders and habituals, so that reclaimable offenders may be kept aloof from the demoralizing company of hardened criminals. It is unsatisfactory that the prison authorities should be left to their own resources to ascertain the antec dents of the convicts for the purpos of such classification. The immediate responsibility for facilit ting this classification rests upon the Magistrates and it is hoped that they will perform their duties in this respect with greater care in future.

6. The increase in sickness and mortality among prisoners is account for by the prevalence of influenza in an epidemic form in the months of October and November 1918. The comparatively small number of deaths

from this disease speaks to the vigilant care exercised in this connection by the Medical officers in charge of the jails and lock-up

7. Jail offences were on the decrease and the concessions under the remission rules were availed o to a fairly large extent. These facts show that the prisoners were kept under proper discipline and t their conduct was on the whole goo With a view to popularise the remission system the practice of mustering prisoners and explaining them the benefits of the remission rules should be introduced in the Bangalore and Mysore Jails and its adoption should be strictly enforc especially and in the case of newl admitted convicts.

8. As regards religious and mor instruction, which should occupy a leading place in the means emplo for the reclamation of criminals, the present arrangements which are the result of private efforts are spasmodic in their nature and are devoid of any method. The Inspector General of Prisons is requested to make ~~more~~ satisfactor arrangements, in consultation with the Inspector General of Education for imparting such instruction to the prisoners in a systematic mann

9. With regard to the difficul referred to in paragraph 46 of the Report, in securing the proper type of men for employment as Warders, Government have lately sanctioned an increased scale of pay to the War Establishment and they trust that this will attract competent recruits to the Jail service.

10. The gross expenditure of the year under report, excluding the out lay on buildings and repairs ~~carried out~~ undertaken by the Public Works Department amounted to Rs.1,15,350 against Rs.1,04,264 in the previous year. This increase was due to the high prices of food stuffs and articles of clothing. The net cost of maintenance of convicts was in consequen Rs.79-6-9 per head against Rs.75-2-2 in the previous year, the cash earni of prisoners amounting to Rs.19,772-(or an average of Rs.25-6-0 per head against Rs.20-6-10 in ~~the previous year~~ 1917.

11. The Manufacturing Sections o the Bangalore and Mysore Jails absor 300 prisoners and the steady improve ment reported in the quantity and quality of the work turned out is noteworthy. Government have had under consideration for some time past the question of developing the Jail industries and have recently

sanctioned the deputation of the Central Superintendent of the ~~latter~~ Jail to certain Jails in the Madras Presidency with a view to improve this branch of the Jail administration. A special allotment of Rs.5,000 for the purchase of raw materials, a non-recurring expenditu of Rs.2,000 and a recurring expenditu of Rs.100 for tools and plant have also been sanctioned for improving the industries carried on in the Mysore Jail.

12. The report discloses a lack of proper appreciation of their dut on the part of Visitors of Jails - official as well as non-official. The Inspector General of Prisons is requested to draw the attention of ex-officio Visitors to their respon sibilities in this matter under chapter III of the Jail Manual and to take steps to replace such of th non-official visitors as are not at to take an active interest in the duties expected of them, by others sufficiently public-spirited to giv due attention to this important wor

13. The Annual Report on the Administration of Prisons, as it is at present drawn up, does not give sufficient prominence to the workir of the Central Jail in Bangalore ar the District Jail in Mysore, which

e widely different in many respec
om the ordinary Lock-ups. Govern
nt therefore direct that in futur
is Report be divided into three
rts - Part I dealing with the
o larger Jails, Part II with the
ck-ups and Part III containing
servations on the general adminis
ation of the Department.

14. Government are glad to note
at the Inspector General of Prisc
d considerable inspection work
ring the year under review and th
s administration of the Departmen
s on the whole been satisfactory.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ —

Letter No. 965-19, dated the 25th April 1919, from the Inspector-General of Prisons in Mysore, submitting the Report on the Administration of Prisons in Mysore for the calendar year 1918.

Order No. G. 5716-29—Pris. 72-18-4, dated 4th September 1919.

The year opened with 1,039 prisoners of all classes in the Jails and Lock-ups of the State and the admissions during the year numbered 11,089, giving a daily average of 1203·37 against 1164·01 in the previous year. Out of these, 10,872 were discharged, leaving a prison population of 1,256 at the close of the year.

2. The number of convicts under 15 years of age admitted during the year under review was 68 against 46, 28 and 19, respectively, in the three preceding years and there was also a marked increase in the number of recommittals among juveniles, which is reported to be 11 against 2, 4 and 5 in the three preceding years. Government have noticed with concern this unfortunate rise in the number of juvenile offenders and they trust that satisfactory arrangements have been made for enforcing the provisions of the Jail Manual for the proper training and education of this class of convicts and for preventing their association with other prisoners.

3. Government are glad to note that the admissions of females, on the other hand, which had risen from 89 in 1905 to 138 and 141 in the two succeeding years, decreased to 108 during the year under report and that among these the number with previous conviction also declined to 6 from 15 and 13 in the two preceding years.

4. The Inspector-General of Prisons has often reported that the number of short term convictions is disproportionately large. This is due to the fact that the provisions of Section 562 of the Criminal Procedure Code for the conditional release of first offenders under certain circumstances are not availed of as largely as may be desired. The attention of Magistrates has already been drawn to this matter in Government Orders Nos. J. 727-39—Pris. 60-16-4, and J. 4991-5004—Pris. 43-17-3, dated 27th August 1917, and 6th June 1918 and Government take this opportunity to impress again upon them the need for a larger use of the discretionary power referred to above in cases in which its application is warranted.

5. Another matter to which Government regret to have to draw the attention of Magistrates again is the omission referred to by the Inspector-General of Prisons in paragraph 17 of his report to furnish to the Jail Authorities the records of previous conviction when convicts are sent to prison for incarceration. The proper administration of jails depends in many ways upon a correct classification of prisoners into first offenders and habituals, so that reclaimable offenders may be kept aloof from the demoralizing company of hardened criminals. It is unsatisfactory that the prison authorities should be left to their own resources to ascertain the antecedents of the convicts for the purpose of such classification. The immediate responsibility for facilitating this classification rests upon the Magistrates and it is hoped that they will perform their duties in this respect with greater care in future.

6. The increase in sickness and mortality among prisoners is accounted for by the prevalence of influenza in an epidemic form in the months of October and November 1918. The comparatively small number of deaths from this disease speaks to the vigilant care exercised in this connection by the Medical Officers in charge of the Jails and Lock-ups.

7. Jail offences were on the decrease and the concessions under the remission rules were availed of to a fairly large extent. These facts show that the prisoners were kept under proper discipline and that their conduct was on the whole good. With a view to popularise the remission system the practice of mustering prisoners

ıd explaining to them the benefits of the remission rules should be introduced in the angalore and Mysore Jails and its adoption should be strictly enforced, in the case newly admitted convicts.

8. As regards religious and moral instruction, which should occupy a leading ace in the means employed for the reclamation of criminals, the present arrangeents which are the result of private efforts are spasmodic in their nature and are evoid of any method. The Inspector-General of Prisons is requested to make satisctory arrangements, in consultation with the Inspector-General of Education, for nparting such instruction to the prisoners in a systematic manner.

9. With regard to the difficulty referred to in paragraph 46 of the report, in curing the proper type of men for employment as warders, Government have lately nctioned an increased scale of pay to the Warder Establishment and they trust that. is will attract competent recruits to the Jail Service.

10. The gross expenditure of the year under report, excluding the outlay on ıildings and repairs undertaken by the Public Works Department, amounted to s. 1,15,350 against Rs. 1,04,264 in the previous year. This increase was due to e high prices of food stuffs and articles of clothing. The net cost of maintenance convicts was in consequence Rs. 79-6-9 per head against Rs. 75-2-2 in the previous ar, the cash earnings of prisoners amounting to Rs. 19,772-6-7 or an average of s. 25-6-0 per head against Rs. 20-6-10 in 1917.

11. The Manufacturing Sections of the Bangalore and Mysore Jails absorbed 10 prisoners and the steady improvement reported in the quantity and quality of the ork turned out is noteworthy. Government have had under consideration for some ne past the question of developing the Jail industries and have recently sanctioned e deputation of the Superintendent of the Central Jail to certain Jails in the Madras residency with a view to improve this branch of the Jail Administration. A special lotment of Rs. 5,000 for the purchase of raw materials and a non-recurring expendire of Rs. 2,000 and a recurring expenditure of Rs. 100 for tools and plant have so been sanctioned for improving the industries carried on in the Mysore Jail.

12. The report discloses a lack of proper appreciation of their duties on the part visitors of jails, official as well as non-official. The Inspector-General of Prins is requested to draw the attention of the *ex-officio* visitors to their responsibilities this matter under Chapter III of the Jail Manual and to take steps to replace such the non-official visitors as are not able to take an active interest in the duties pected of them, by others sufficiently public-spirited to give due attention to this ıportant work.

13. The Annual Report on the Administration of Prisons, as it is at present awn up, does not give sufficient prominence to the working of the Central Jail in ıngalore and the District Jail in Mysore, which is widely different in many respects om that of the ordinary Lock-ups. Government therefore direct that in future this port be divided into three parts—Part I dealing with the two larger Jails, Part II th the Lock-ups and Part III containing observations on the general administıtion of the Department.

14. Government are glad to note that the Inspector-General of Prisons did nsiderable inspection work during the year under review and that his administration the Department has on the whole been satisfactory.

Exd.—C. R.

No. 961—5-19.

OFFICE OF THE INSPECTOR-GENERAL OF PRISONS IN MYSORE.

Dated Bangalore, 24th—25th April 1919.

From

RAJAKARYAPRAVINA RAO BAHADUR,

T. V. ARMUGAM MUDALIAR, Esq., M.B.C.M.,

Inspector-General of Prisons in Mysore, Bangalore.

To

C. S. BALASUNDARAM IYER, Esq., B.A.,

Chief Secretary to the Government of

H. H. the Maharaja of Mysore, Bangalore.

Sir,

Introductory.—In continuation of my letter No- 908—5-19, dated 15—16th instant, forwarding the Annual Returns of Jails and Lock-ups of the State for the calendar year 1918, I have the honor to submit the following report on their administration.

2. *Divisions.*—The report, as usual, is divided into three parts, *viz* :—Part I, Judicial, dealing with statements Nos. 1 to 8, 18, C. D. and General Summary, Part II Financial dealing with statements Nos. 9, 10, 11, 12 and 13 and Part III, Vital, dealing with statements Nos. 14 to 17, A and B.

3. *Inspector-General of Prisons.*—I was in charge of the Department throughout the year.

4. *Classes of Prisons.*—The number of Jails and Lock-ups remained the same as in the previous years and they are as given hereunder :—

1 Central Jail at Bangalore.
1 District Jail at Mysore.
6 District Lock-ups at the Headquarter Towns of Districts except at Bangalore and Mysore.
1 Special Lock-up at Kolar Gold Fields.
71 Taluk Lock-ups at the Headquarter Towns of Taluks and Sub-Taluks.

5. *Buildings and accommodation.—Bangalore Central Jail.*—As I have already stated in my previous report, the buildings of this Jail are very old. Petty repairs were executed here and there during the year under report. The project for the construction of a new Central Jail which has been called for from the authorities of the Public Works Department has not been received by me as yet. The Chief Engineer of Mysore who was reminded of the matter has replied that the project in question would be sent up by the end of April 1919. On receipt of the same in this office, I shall submit definite proposals for the orders of Government.

Mysore Jail.—The buildings of this Jail also are old and yet they are kept in a good state of repairs. The various improvements and repairs sanctioned by Government are being executed gradually one after another. The question of certain minor improvements needed in the kitchen attached to the Jail, the change of site sanctioned for residential quarters to Jail officials, of improving the *post mortem* room and of the construction of a platform for ablutionary purposes is under contemplation. A new dining shed is under construction. The plan for the sanctioned guard room and armoury block was slightly modified and the work is expected to be finished in the course of the current year, *viz.*, 1919.

Lock-ups.—The Lock-up buildings throughout the State are fairly in good condition. The construction of an additional Lock-up for Europeans at Kolar Gold Fields has been taken on hand. It is reported that the work of constructing the compound wall round this Lock-up which has been sanctioned by Government will also be taken up early by the Public Works Department. The construction of a new Lock-up at Malur is almost completed and the Executive Engineer, Kolar Division, has been addressed to hand over the same to the Lock-up authorities as early as practicable. The District Lock-up at Tumkur is yet kept in the old building and it is not yet removed to the old Jail buildings as they have not been readjusted to suit the requirements of the Lock-up. Plans and estimates for the construction of a new Lock-up at Turuvekeré have been sent, after countersignature to the Public Works Department for sanction. It is reported that plans and estimates for the improvement and repairs to the District Lock-up at Shimoga have been sent duly countersignd to the Executive Engineer, Shimoga Division. Definite proposals for constructing a new Lock-up at Sagar have been called for, as the present accommodation in that Lock-up is found insufficient.

Part I.—Judicial. General Summary.—At the beginning of the year under report, there remained in the Jails and Lock-ups, a total population of 1,039 prisoners of all classes 11,089 prisoners were admitted, 10,872 were discharged from all causes and 1,256 remained in confinement at the end of the year. The daily average number of prisoners increased from 1,164·01 to 1,203·37.

7. *Civil Prisoners.*—The number of this class of prisoners at the commencement of the year was 9; 134 were admitted during the year and 131 discharged leaving a balance of 12 prisoners at the end of the year. The daily average of this class of prisoners was 7·28 against 6·50 in the previous year.

8. *Statement No. I.—Convict population.*—On 1st January 1918, the convict population was 780 of whom 773 had been direct committals and the remaining 7 in transit. New admission of the former class numbers 2,231 and the admissions by transfer 68 making a total of 3,072. Of these 23 were transferred to the Jails in the Madras Presidency, 49 were transferred from one Jail to another within the State, 179 were released on appeal, 1,714 on expiry of sentence, 189 under Remission Rules, 50 on other grounds (granted conditional release as they were enlisted for service in the 10th Jail Porter Corps), one was surrendered to the British Territory, one escaped, 9 were executed and 35 died, leaving a balance of 822 at the close of the year. Among the latter class of convicts, *i.e.*, convicts in transit whose number was 7 at the beginning of the year, fresh admissions numbered 685 making a total of 692. Of these, 678 were transferred, 6 were released on appeal, 3 on expiry of sentence, and 2 escaped leaving a balance of 3 at the end of the year. The daily average number of convicts was 877·14 against 905·89 in 1917 or a decrease of 28·75.

9. *Sexes of convicts*:—Out of 2,231 direct admissions, 2,123 or 95·16 per cent were males and 108 or 4·84 per cent were females. Their percentages were 92·89 and 7·11 respectively in the year previous.

10. *Statement No. II—Religion, Age, Education and Occupation of Convicts*:—Classified according to religion, 85 or 3·82 per cent of total admissions were Christians, 362 or 16·22 per cent were Mahomedans, 1,778 or 89·79 per cent were Hindus and 6 or ·27 per cent were Buddhists and Jains against 6·46 per cent of Christians, 15·19 per cent of Mahomedans, 78·30 per cent of Hindus and ·50 per cent of Buddhists among those admitted in the previous year. The ratio of Christians has decreased by 2·64, while the ratios of Mahomedans, Hindus and Buddhists have increased by 1·03, 1. ·39 and ·22 respectively as compared with the figures of the previous year.

11. *Age periods*:—The number of convicts under 15 years of age admitted during the year was 68 or 3·05 per cent, between 16 and 40 years, 1,768 or 79·24 per cent, between 40 and 60 years 367 or 16.40 per cent and above 60 years 28 or 1·26 per cent.

12. *Education.*—Classified according to education, 358 or 16·04 per cent were able to read and write, 14 or ·63 per cent were able to read only and the remaining 1,859 or 83·33 per cent were illiterate. Similar percentages of those admitted in the year 1917 were 18·17, ·35 and 81·48 respectively.

13. *Previous Occupation*:—Out of the total number of convicts admitted during the year, 2,123 were males, among whom:—

119 or 5·61 per cent were Government or Municipal servants;
142 or 6·69 „ were professional presons;
38 or 1·79 „ were persons in personal service;
966 or 45·50 „ were agriculturists;
141 or 6·64 „ were persons engaged in commerce and trade;
83 or 3·91 „ were persons employed in mechanical arts etc;
634 or 39·86 „ were miscellaneous persons not classed otherwise.

As usual, agriculturists form the bulk of the admissions, their percentage in the year previous being 46·55 of the total number of males admitted.

14. *Civil condition of females*:—Among 108 females, the married women numbered 42 or 38·89 per cent, unmarried 6 or 5·56 per cent, widows 56 or 51·85 per cent and prostitutes 4 or 3·70 per cent.

15. *Statement No. III—Length and Nature of sentences*:—Of 2,231 convicts that were admitted into Jails and Lock-ups, 1,063 had not more than one month's imprisonment to undergo. As in the previous years, the proportion of short periods of imprisonments is excessive. Twenty-three prisoners sentenced to transportation for life and 9 prisoners sentenced to suffer death were admitted into Jails during the year against 11 and 17, respectively in the year previous.

Classified according to the nature of sentence:—

240 or 10·76 per cent had been sentenced to simple imprisonment;
1,974 or 88·48 „ had been sentenced to rigorous imprisonment;
8 or ·36 „ had been sentenced to rigorous imprisonment with solitary confinement; and
9 or ·40 „ had been sentenced to rigorous imprisonment with whipping.

16. *Statement No. IV—Nature of offences*:—As in previous years, theft including theft in a building and by servants outnumber all other causes of imprisonments, convicts thereunder being 1,147 or 51·41 per cent of the total admissions. Convictions under Special, Local and Municipal laws have increased, being 249 or 11·16 per cent against 219 or 9·80 per cent of the total admissions in the year previous.

17. *Statement No. IV Recomittals, Habituals and Juvenile offenders*:—Out of the total number of convicts admitted into Jails and Lock-ups during the year, 141 had been previously convicted. This number includes 6 female convicts. The number of recomittals among Juveniles has increased, being 11 against 2 in the previous year. Records of previous convictions are not usually sent by Magistrates with convicts. The recognition of habituals is done by questioning the prisoners themselves and by the testimony of warders and other prisoners. In doubtful cases, finger prints are taken in Jails and sent to the Bureau for identification. In most of the cases it is the Jail authorities that trace previous convictions. In this connection, I once again request that Gouernment may be pleased to repeat para 3 of their Order No. J. 2072-83—Pris 45-14-4, dated the 30th of November 1915 enjoning the Magistrates to record previous convictions on warrants issued by them.

18. *Statement No. V—Escapes and recaptures*:—Of those who had escaped during the previous ten years, none was recaptured. During the year under report, three convicts escaped, one from the Taluk Lock-up at Chikballapur, one from the Lock-up at Tirthahalli and the other from the Lock-up at Yelandur. The convict that had escaped from the Tirthahalli Lock-up was recaptured and was punished with 6 months' rigorous imprisonment on 30th August 1918. Similarly, the convict that escaped from the Yelandur Lock-up has also been recaptured during the year and steps have been taken to place him for trial before a Magistrate for having escaped from lawful custody. The other convict who has escaped from the Lock-up at Chikballapur still remains at large.

19. *Statement No. VI—Offences and punishments*:—The number of offences recorded was 287 against 294 in the previous year. All the offences were dealt with by the Superintendents of Jails themselves under the authority vested in them by the Prisons Act of 1870. Of the offences tried by them, 34 or 11·84 per cent were met with corporal punishment against 40 or 13·60 per cent in 1917.

20. *Statement No. VII—Convict Officers*:—Among the daily average number of 877·14 convicts, 104 or 11·85 per cent were employed as Prison Officers against

137 or 15·12 per cent of the daily average number employed in 1917. The number of recorded offences fell from 21 in the previous year to 15 in the year under report.

21. *Statement No. VIII—Diet.*—The scales of dietary prescribed in the Jail and Lock-up Manuals were in force during the year.

22. *Statement No. XVIII Under-trial prisoners:*—There remained 250 prisoners of this class at the beginning of the year. New admissions numbered 7,971 making a total of 8,221. Of these:—

1,398 were released on bail;
1,513 were discharged and acquitted by Magistrates;
1,543 were released by Police;
2,134 were convicted and sentenced;
1,199 were transferred;
5 escaped; and

ten died, leaving a balance of 419 at the close of the year. The number of admissions and acquittals were in excess of those in the year previous, but the average period of detention remained the same as in the year 1917. The daily average number has increased from 251·62 in 1917 to 318·95 in the year under report.

23. *Statement No. C.—The remission system.*—The number of convicts released under the operation of the Remission Rules contained in Chapter XX of the Mysore Jail Manual was 189 against 283 in the year before. The Maximum remission gained was 1,557 days by a life-term convict of the Central Jail, Bangalore. The maximum gratuity earned was Rs. 59-14-6 by the same life-term convict. The average gratuity earned by convicts released was Rs. 3-0-5 during the year under report against Rs. 1-13-5 in the year 1917. The award of remission is appreciated by all prisoners, some of whom are reported to have even felt very sorry for their carelessness in the early period of their term during which some offences which they committed deprived them of the full benefits of the system.

Part II Financial.

24. *Statement No. IX—Gross expenditure.*—Excluding the outlay on repairs to buildings, the gross expenditure of the year was Rs. 1,15,350-10-6 against Rs. 1,04,264-3-7 in the year previous. Nearly all heads of expenditure show an increase, those of "Dietary charges" and "Charges for other miscellaneous services and supplies" showing it more markedly than others. This increase in expenditure under various heads is mainly attributable to abnormal seasonal conditions prevailed in the year under report. The increase under "Dietary charges' is due to high prices at which articles of rations were purchased during the year. Similarly the increase under "Charges for other miscellaneous services and supplies" is due to (1) the increase in the prices of various articles specially Kerosine Oil (2) the increase in the rate of gratuity paid to released prisoners and (3) to the increase in the cost of uniforms supplied to warders in Jails in accordance with the new Jail Manual. Consequent on the increase in expenditure during the year under report, the cost per head rose from Rs. 89-9-2 in 1917 to Rs. 95-13-8.

25. *Statement No. XI—Employment of Convicts.*—Among the daily average number of 877·14 convicts 779·21 or 88·83 per cent were available for work, the rest being either convicts undergoing simple imprisonment, sick and convalescent or infirm or those that could not be employed for other reasons. Of the convicts available for work, 104 or 13·34 per cent were employed as Prison Officers, 115 or 14·75 per cent as Prison servants and 300 or 38·50 per cent on Manufactures, against 137 or 16·64 per cent, 71 or 8·62 per cent and 301 or 36·58 per cent of the daily average number of convicts who had been available for employment in the year 1917.

26. *Statement No. XII—Cash earnings.*—The result of employment of convicts was that a sum of Rs. 19,772-6-7 was realized as revenue against Rs. 16,807-12-10 realized in the year 1917. This amount includes Rs. 1,153-4-0, the value of convict labour supplied to the Palace institutions and the Dewan's quarters in Bangalore and Mysore, calculated at the rate of 2 annas per head per diem and taken into account only in administrative accounts of the Department. The average cash earnings per head of working convicts rose from Rs. 20-6-10 to Rs. 25-6-0 in the year under report.

27. *Statement No. XIII—Net cost of prisoners.*—The gross cost of maintenance as mentioned in para 24 above was Rs. 1,15,350-10-6, deducting from this, the total cash earnings of prisoners, *i. e.*, Rs. 19,772-6-7, the net cost of maintenance of prisoners in Jails and Lock-ups was Rs. 95,578-3-11 or Rs. 79-6-9 per head against a net cost of Rs. 87,456-6-9 or Rs. 75-2-2 per head in the year before.

Industries in Jails.

28. *Bangalore Central Jail.*—The outlay on various industries carried on in this Jail was Rs. 15,829-4-1 and the amount realized and credited to Treasury was Rs. 25,375-2-4 or an excess of Rs. 9,545-14-3 as against Rs. 15,794-13-11 and Rs. 20,096-10-5 respectively in the year before. Taking into consideration the value of raw materials, the manufactured goods in stock and the outstanding debts due to the Jail both at the commencement and at the end of the year 1918, the net profit from manufactures was Rs. 10,321-12-7 against Rs. 4,517-13-9 in the year previous. This sum, *i, e.*, Rs. 10,321-12-7 includes Rs. 1,446-0-6, being the cost of labour for manufacturing ropes out of the fibre supplied by the Military authorities at Bangalore. The Superintendent of this Jail reports that plain woollen carpets of a new design were manufactured and sold to the public on a large scale in the year under report.

29. *The Central Jail Garden.*—The garden supplied the requirements of the Jail without interruption, though there was no work for about a fortnight during the period of influenza epidemic in October and November 1918. The expenditure on account of seeds and implements purchased was Rs. 204-5-2 against Rs. 273-4-7 in the previous year and the realization by the sale of vegetables to the public was Rs. 784-12-1 against Rs. 462-8-3 in 1917. The increase was due to the rates of vegetables and grass having been enhanced in accordance with the rates ruling in the market. The cost of vegetables supplied for the use of prisoners confined in the Jail amounted to Rs. 784-3-6 against Rs. 942-0-1 in 1917. This cost has been calculated at 120 lbs. per rupee which was the rate tendered by the contractor, against 100 lbs. in the year previous. During the year, there was a strike in the vegetable market, Civil and Military Station. At that time the Jail undertook the supply of vegetables to the Military Force and the required quantity was promptly supplied, which had the desired effect of bringing the strike to an end.

30. *Mysore Jail.*—The following table illustrates the progress achieved in the Manufacturing Department of this Jail :—

Year	Number of convicts employed	Total value of goods turned out			Net profit to Government		
		Rs.	a.	p.	Rs.	a.	p.
1916	15·23'	1,712	3	10	564	11	2
1917	18·71	2,067	1	9	1,041	2	9
1918	19·67	4,561	3	7	1,465	7	9

This table clearly shows that there was an increased quantity of work turned out during the year under report. The quality of the work is also reported to have improved.

31. *Mysore Jail garden.*—The value of vegetables consumed by prisoners was Rs. 430-5-11 and that sold to the public was Rs. 551-13-3, making a total of Rs. 982-3-2 against a small outlay of Rs. 6-10-4. The net income was therefore Rs. 975-8-10 as against Rs. 823-13-1 in the year previous. This result is reported to have been achieved, notwithstanding the fact that the garden had to be neglected for over a month on account of influenza in the Jail and paucity of men to work in it. The supply in this period was therefore poor and the difficulty was tided over by the exchange of other garden produce for vegetables.

Part III.—Vital.

32. *Statement No. XIV—Sickness and mortality.*—Exclusive of Hospital and observation cells, the Jails and Lock-ups in the State can provide accommodation

for 2,359 prisoners. The aggregate number of prisoners admitted into Hospital rose from 641 in 1917 to 844 during the year under report. The daily average number of sick has therefore increased from 16·19 to 27·23. The number of deaths has similarly increased from 22 in 1917 to 47 in the year under report. Out of 47 deaths, 29 occurred in the Central Jail, Bangalore, 6 in the District Jail, Mysore, and the remaining 12 in the Lock-ups of all the Districts except Shimoga. Of these deaths, 35 occurred among convicts and the rest among undertrials and Civil. The increase in the number of deaths was due to influenza which appeared in an epidemic form during the months of October and November 1918. The Medical authorities of Jails took great precaution in suppressing the disease by segregating the contacts in barracks, Hospitals and cells and allowing special diet to the sick.

33. *Statement No. XV—Sickness and mortality among convicts.*—The number of convicts treated for various diseases declined all over, except those treated for other general diseases. The admissions for malarial fevers markedly decreased, *i.e.*, from 286 in 1917 to 81 in the year under report. Of the 35 deaths among convicts :—

1	was due	to	dysentery,
2	,,	,,	tubercle of the lungs etc.,
28	,,	,,	Influenza,
2	,,	,,	Pnuemonia, and
2	,,	,,	Diarrhœa.

34. *Statement No. XVI—Mortality according to length of original sentence.*—Of the 35 deaths among convicts, 9 occurred among those whose sentence did not exceed 6 months, 4 among those who were undergoing a sentence not exceeding one year, 6 among those whose sentence did not exceed three years, 6 among those whose sentence did not exceed 7 years and 10 among those whose sentence was above 7 years.

35. *Statement No. XVII—Mortality according to the length of time passed in Jail.*—Out of the total number of deaths among convicts, 11 died within 6 months after admission into Jails and Lock-ups, 7 died within one year, 6 within 2 years, 3 within three years, 2 within 7 years and 6 above seven years.

36. *Statement No. A.—Accommodation in Jails.*—No. overcrowding was was reported from Jails and Lock-ups in the State during the year under report.

37. *Statement No. B.—Condition of convicts discharged.*—The total number of convicts discharged during the year was 2,939 against 3,072 in 1917. Of these, 1,443 convicts who were discharged from Lock-ups were, as usual, not weighed either at the time of their admission or discharge. Out of the remaining 1,496 convicts who were released from Jails, 832 had gained weight, 221 had lost weight and the remaining 443 had neither gained nor lost it.

38. *Drainage and Conservancy.*—There was no change in the arrangement for drainage and conservancy. The dry earth system has been in force and is working satisfactorily. Male prisoners adopted the Hebrew method of evacuation in Lock-ups.

39. *Diet.*—Articles of diet were, as usual subjected to the conditions laid down in the rules relating to the purchase of stores by Government Officers, obtained from contractors at the rates previously agreed upon in the case of Jails. But in the case of Lock-ups, the practice of obtaining supplies at the prevailing market rates from respectable merchants continued during the year under report.

40. *Water supply.*—Water supply was wholesome and unfailing throughout, except in the Central Jail at Bangalore, where, it is reported much difficulty was experienced in getting the required quantity of supply. No attention has been paid by the authorities of the Water Supply Department for remedying the defects, though frequent requisitions were sent to them on the subject.

41. *Clothing and bedding.*—Clothing and bedding were issued to prisoners according to seasonal requirements and rules in force.

42. *Religious and Moral instructions.*—The arrangements made for giving Religious and Moral instructions to convicts in Jails has worked satisfactorily. The prisoners were, as usual, allowed to use books during leisure hours.

43. *Inspections.*—One Central Jail, one District Jail, 6 District Lock-ups, 1 Special Lock-up and 39 Taluk Lock-ups were inspected by me in detail in accord-

ance with Government Order No. 43—E.A.G., dated 29th January 1916, during the year under report. Besides detailed inspections, I paid two more visits to the District Jail at Mysore and one visit each to the Lock-ups at Tumkur, Chitaldrug Jagalur and Holalkere. The District Magistrates inspected 46 Lock-ups, and all these were inspected only once except the Taluk Lock-ups at Holalkere and Sagar which the District Magistrates of Chitaldrug and Shimoga, state, were inspected by them twice.

44. *Official and non-official visitors.*—During the year under report, the only official visitors that paid visits to Jails and Lock-ups were the District Magistrate, Mysore and the Inspector-General of Police. The former paid one visit to the District Jail, Mysore and the latter visited once the Lock-ups at Gundlupet and Hole-Narsipur. Out of the non-official Visitors appointed by Government in their Order No. J. 4045-7—Pris. 3-17-10, dated 4th April 1918, none paid visits to Jails except Rev. G. Wilkins who visited the Central Jail at Bangalore twice in the year.

45. *Personnel.*—Mr. A. K. Pani continued to be in charge of the duties of the Superintendent and Medical Officer of the Central Jail, Bangalore, throughout the year. The charge of the District Jail, Mysore, was held by Mr. S. Subba Rao, Assistant Surgeon, throughout the year with the exception of one month and 9 days from 21st September to 30th October 1918, during which period Mr. E. S. Krishnasami Iyer held both the General as well as Medical charges of the Jail.

46. *Warder force.*—Much difficulty was felt to procure the services of men of the posts of Warders, who were of the standard height and chest measurements prescribed in the Jail Manual. The posts do not tempt the men, since the old scale of pay of Rs. 7 still exists. Most of the men in service being attracted by better pay outside have left the Jail service. Men of old-age and youths under 20 years both of poor and meagre physique are being entertained temporarily to fill up vacancies. I therefore place before Government once again the question of increasing substantially the scale of pay of warders. There was a strike among the warders of the Central Jail in the month of March 1918, as they were required to do duties in accordance with the new rules contained in the revised Jail Manual. Consequently I had to visit the Jail on the 30th of the same month and to explain to the strikers clearly the nature of duties they had to perform as defined in the Jail Manual. Upon my instructions, they resumed their duties. During the absence of the strikers, application was made to the Inspector-General of Police who was kind enough to place the services of 6 constables and one Naik at the disposal of the Jail authorities for guarding purposes.

47. *Establishment.*—The staff of my office has, as usual, worked satisfactorily during the year.

48. *Concluding Remarks.*—On the whole, discipline and conduct of prisoners were good throughout the year.

I have the honor to be,
Sir,
Your most obedient servant,
T. V. ARUMUGUM,
Inspector-General of Prisons.

TATEMENT No. I—(JUDICIAL)—(FOR CONVICTS ONLY.)—Showing the number and the disposal of the convicts in the Jails and Lock-ups of the Mysore State during the year 1918.
